2. Specifications

The Vendor shall provide all products and services in strict accordance with the specifications outlined below. These specifications represent the minimum acceptable standards of quality, construction, performance, and serviceability. By submitting a proposal, the Vendor acknowledges and agrees that all items furnished under the resulting contract must meet or exceed these specifications. Failure to supply products that conform to the required

specifications may result in product rejection, contract suspension, or contract termination at the discretion of the State of Mississippi.

2.1. Item Requirements

These specifications establish the requirements for Maintenance, Repairs, and Operations (MRO). A list of items is included with this document, as **Attachment A**. Vendors are **not required** to offer all items listed in this solicitation to receive a contract award. However, the Office strongly encourages Vendors to propose as many eligible products as possible, as broader product availability enhances statewide usability and may increase purchasing opportunities for the Vendor. The products on this list are the only products that will be available for sale.

2.2. Applicability and Compliance

Commodities procured under these specifications shall not deviate from those originally contracted for without written approval from the Office of Purchasing, Travel and Fleet Management. These specifications shall, until revised or rescinded, apply to all future purchases and contracts for the described commodities.

It is the intent of these specifications to obtain products that adequately meet user needs while promoting fair competition. Prospective bidders must review the full Format and Guidelines for Proposals, and notify the Office of Purchasing, Travel and Fleet Management of any issues that may unnecessarily restrict competition.

Any commodities or products currently covered under an existing State of Mississippi statewide contract are **expressly excluded** from any contract resulting from this Proposal Format and Guidelines. Offerors shall not propose items that are already available through another active State contract. The excluded commodities include, but are not limited to, the following: Automotive Parts and Equipment, Automotive Batteries, Janitorial Chemicals, Toner Cartridges, Office Supplies, Paper Towels, and Toilet Tissue.
