

Attachment C RFP EVALUATION PLAN

The State of Mississippi reserves the right to waive any minor informality or technicality in proposals received.

Stage 1: Initial Responsiveness Evaluation. Proposals will be reviewed for completeness and initial responsiveness. Proposals omitting required documents or responses may be rejected in accordance with Attachment A, RFP Terms and Conditions.

Stage 2: Mandatory Minimum Requirements Evaluation. Complete and responsive proposals will be reviewed for compliance with the following Mandatory Minimum Requirements:

	Mandatory Minimum Requirement	Evaluation	Result
1	<u>Mississippi Requirements:</u> Offeror certifies they have read the solicitation in its entirety including any and all amendments the Lead State of Mississippi has issued.	Pass/Fail	
2	<u>Scope of Work Certification:</u> Offeror certifies they can satisfy the Scope of Work	Pass/Fail	
3	<u>Technical Proposal:</u> Offeror must upload a complete Technical Proposal responding to all questions within Attachment H Offeror Response Worksheet.	Pass/Fail	
4	<u>Cost Proposal:</u> Offeror must upload a complete Cost Proposal by completing and submitting Attachment I Cost Proposal.	Pass/Fail	
5	<u>Manufacturer Certification:</u> Offeror certifies and acknowledges that awards will only be made at the manufacturer level. Individual dealers, resellers, and/or authorized distributors of a manufacturer will only be considered if they have an approval letter from the manufacturer to submit a proposal to the solicitation on behalf of the manufacturer.	Pass/Fail	
Stage 2 Result:			

Proposals failing to meet all Mandatory Minimum Requirements may be rejected in accordance with Attachment A, RFP Terms and Conditions.

Stage 3: Technical Criteria Evaluation. Proposals meeting the Mandatory Minimum Requirements will proceed to the Technical Evaluation.

There are seven award categories an Offeror may submit for:

Category 1	Aerial
Category 2	Pumper
Category 3	Tanker
Category 4	Rescue
Category 5	Wildland
Category 6	Aircraft Rescue and Firefighting (ARFF)
Category 7	Electric Aerial

Request for Proposals for
FIRE APPARATUS

Issued by the **State of Mississippi**
Solicitation Number # 3120003350

Regardless of whether you submit for one category or all seven, an Offeror will receive one technical score. The technical criteria is intended to be broad enough to apply to the company as a whole, and not a specific category. An Offeror will be evaluated against the following Technical Criteria:

Criteria	Criteria Weight	Technical Points Possible	Offeror's Technical Points Earned
Criteria 1: Experience, Skills, and Qualifications	40	200	
Criteria 2: Ability to Meet the Scope of Work	40	200	
Criteria 3: Customer Service and Distribution Network	30	150	
Criteria 4: Implementation of the NASPO Master Agreement	10	100	
Stage 3 Total:		650	

Each evaluator will provide an independent evaluation of each supplier and how they scored per criteria. The total score will be the average of the evaluators individuals scores multiplied by the criteria weight. An Evaluator shall provide a score of 1, 2, 3, 4, or 5, no half scores or decimals are allowed. The scoring rubric for each value and an example to illustrate how scoring will work is shown below.

Evaluators shall use a rating of 1 to 5 for each evaluation criteria. Rating is defined as follows:

- 1- **Poor.** The criterion is inadequately addressed, Offeror demonstrates only slight ability to comply, or there are serious inherent weaknesses.
- 2- **Fair.** The Proposal broadly addresses the criterion, but there are significant weaknesses. May have one or more deficiencies, or Offeror has not adequately explained how its services fit the requirement.
- 3- **Good.** The Proposal addresses the criterion well; meets the requirement. Demonstrates knowledge and understanding of the subject matter, with no deficiencies noted regarding technical approach.
- 4- **Very Good.** The Proposal addresses the criterion very well, highly comprehensive. No deficiencies noted.
- 5- **Excellent.** The Proposal successfully addresses all relevant aspects of the criterion, that goes beyond the requirements listed in the RFP to provide added value. In addition, the response may cover areas not originally addressed within the RFP and/or include additional information and recommendations that would prove both valuable and beneficial to the agency. The response includes a full, clear, detailed explanation of how requirement(s) are met. No errors in technical writing.

An example screenshot is provided below for criteria 1 to demonstrate the criteria, individual evaluators scores, and criteria weight and how a score is determined for fictional Supplier A receiving 152 points for criteria 1. For the scores below, 4 out of the 5 evaluators scored the supplier "4" or "very good" while 1 evaluator scored them "3" or "good". The total score is the AVERAGE of the evaluators scores multiplied by the criteria weight (in this case, 40). For example, if each evaluator scored the supplier "5" or "Excellent", the average would be 5, which multiplied by 40 would equal 200 points.

Weight	Stage 3 - Technical Scores	Supplier A
	Criteria 1 - Experience, Skills, and Qualifications	
	Evaluator 1	4.0
	Evaluator 2	4.0
	Evaluator 3	4.0
	Evaluator 4	3.0
	Evaluator 5	4.0
	Total Average Score	3.8
40.0	Criteria 1 - Total Points = 200	152.0

Per Mississippi (MS) Statute 3.107.10 proposal technical scores will be initially classified with the following two designations:

1. **Potentially Acceptable:** Any Offeror that receive at least 422.5 points
2. **Unacceptable:** Any Offeror that receives less than 422.5 points.

Offerors earning a minimum of 422.5 points (65% of available Technical Points) will be deemed Potentially Acceptable (MS Statute 3.107.10) for the technical stage and move on to Stage 4: Cost Evaluation. The proposal of any Offeror not earning the minimum of 422.5 points will be deemed Unacceptable and will not proceed to the Cost Stage

Stage 4: Cost Evaluation. Only Cost Proposals for proposals that were deemed Potentially Acceptable in the Technical Stage will be evaluated. Each category of award will have its cost evaluated independently against the category for award.

The Cost Stage contains three separate sections. Per MS Statute 3.107.07, the Cost Stage must account for at least 35% of all available points. The Cost Stage in this solicitation consists of 350 points per category. For a more detailed description of each section, please see Attachment I Cost Proposal. The table below represents the cumulative totals received.

PROPOSED COSTS

Category	Cost Points Possible	Offeror's Cost Points Earned
----------	----------------------	------------------------------

**Request for Proposals for
FIRE APPARATUS**

Issued by the **State of Mississippi**
Solicitation Number # 3120003350

Aerial	350	
Pumper	350	
Tanker	350	
Rescue	350	
Wildland	350	
ARFF	350	
Electric Aerial	350	

Evaluation Summary

Category Score Totals (TECHNICAL + COST):

*As a reminder, in the table below, the technical score an Offeror receives will be applied to all categories for which they are submitting a proposal for. Only Cost submissions will be scored independently and against only that category.

Category	*Technical Points (650 Points Possible)	Category Cost Points (350 Points Possible)	Offeror's Total Points Earned (1000 Points Possible)
Aerial			
Pumper			
Tanker			
Rescue			
Wildland			
ARFF			
Electric Aerial			

Award Selection

In accordance with MS Statute 3.107.12, all Offerors shall be ranked according to their combined technical and cost scores. While ranking will help identify top scoring Offerors, there is no predefined cut off amongst the rankings to determine which are Acceptable to Mississippi e.g. "only the top 5 ranked proposals will be deemed Acceptable." The Lead State and Multistate Sourcing Team have determined that, regardless of ranking, the threshold for being deemed Acceptable and eligible for award will be 650 points out of 1000.

All Offerors earning a minimum of 65% (650 points) or more from the combined Technical Criteria Evaluation and Cost Evaluation Points (1000) will be Acceptable and be eligible for a Master Agreement award. The proposal of any Offeror not earning the minimum of 650 points combined with the Technical Criteria Evaluation and Cost Evaluation will be deemed Unacceptable and rejected from further consideration.

Prior to announcement of awards and execution of Master Agreements, the Lead State will present an award recommendation to NASPO ValuePoint for approval of the proposed awards.
